DETAILED ACTION

Applicant's amendment of claims 4, 15 and 16 in the paper of 11/25/2005, is acknowledged. Claims 4, 5, 14-17 and 49 are at issue and present for examination.

Applicant's amendment has overcome the previous rejection.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christine Dietzel on 1/31/2006.

The application has been amended as follows:

In claim 16, part b. Replace "encoding **an** amino acid sequence" with "encoding **the** amino acid sequence".

In claim 16, part c. After "SEQ ID NO: 34", replace "which encodes a mammalian alpha kinase polypeptide expressed in the heart and having" with ", wherein said fragment has".

The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest an isolated nucleic acid encoding a mammalian alpha kinase having the sequence of SEQ ID NO: 34 or a fragment thereof which encodes a mammalian alpha kinase under control of an expression control sequence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard G. Hutson whose telephone number is 571-272-0930. The examiner can normally be reached on M-F, 7:00-4:00.
